Circular No. 7 P. W., dated 14th April 1909.

To—All Executive Engineers, Chief Electrical Engineer, Sanitary Engineer and all Civil Officers.

SIR,

It has been the practice since the year 1902-03, for the supplementary accounts for June to be compiled in this office, but this procedure is open to the objection that this office both audits and compiles the same accounts. I have the honor, therefore, to request that they may be compiled in Divisional Offices in future.

2. The supplementary accounts for June 1909 should be forwarded so as to reach this office not later than the 31st August 1909, and should include all adjustments in connection with the following classes of transactions:—

(*a*) Transfers from other Divisions which have been included in the accounts of the transferring Division for June ordinary (or a previous month) but not advised to you until after the closing of your accounts for June ordinary.

(*b*) Civil Exchange account items for May and June (and possibly even for April) the latest of which would not in ordinary course be known to this office till about the 15th August on which date the Civil Exchange accounts for June are due in this office.

(*c*) Adjustments of short or excess debits during the year to establishment and tools and plant under all funds.

(*d*) Rectification of debits or credits to wrong heads of account or to works, which it is absolutely necessary to adjust in the accounts of the current year.

3. It is neither necessary nor desirable to bring into the supplemental accounts for June, adjustments of trifling amounts which can just as well be made in the accounts of the following year and I would request special attention to this point.

4. Should there be no supplementary accounts to submit, intimation of the fact should be posted so as to reach me by the date mentioned in para 2.

I have the honor to be,
Sir,
Your most obedient servant,
J. S. CHAKRAVARTI,
Comptroller,
P. W. and Ry. Branch.

MISCELLANEOUS.

Notice dated 14th April 1909.

A demonstration of the process of making sugar directly from the cane juice instead of from jaggory, as is usually done in India, will be made at the Experimental Farm at Hebbal commencing from Monday the 3rd May 1909. All persons interested in the work are invited to witness the demonstration, which lasts for about a fortnight. The demonstration will be conducted from 6 A.M. to 6 P. M. daily. The Manager of the Farm will be present to explain the process.

LESLIE C. COLEMAN,
Mycologist and Entomologist
in charge of
the Agricultural Chemist's office.
